

Privately owned 1966 Bristol Lodekka will operate from Dalton Lane to Ingrow on a limited service.
We would like to thank the owners for their assistance.

Last minute special!

KBMT owned 1951 Bristol LL5G
Will also operate on the limited Dalton Lane to Ingrow service
Throughout the day.

There will now be an extra service linking Dalton Lane via the bus station to the Worth Valley Railway at Ingrow Station.

Due to parking restrictions on the site, the service will be limited and operated by our two representatives of the West Yorkshire fleet only.

We thank the WVR for their co-operation in this event, and for allowing the use of Ingrow as a service and display area.

Running times are dependant on traffic conditions.
